

## 2016 - 2017 Transformational Awards

The Hawaii Energy Policy Forum (HEPF) recognizes annually organizations or individuals that have made transformational achievements in advancing clean energy in Hawaii. Many have contributed to Hawaii moving toward 100% clean energy but there are a few who have made a significant difference in transforming the clean energy landscape. Without the taking of risk, the bold step, the bringing together of spirit, minds and commitment to tackle a need or problem in one of the major paths to clean energy, we would not be moving forward.

HEPF gives transformational achievement awards in six major areas: policy/legislation, technology, integration with other sectors, efficiency/conservation, collaborative problem solving, and education/communication. See HEPF website for last year's awardees and how they made a difference in clean energy: [www.hawaiienergypolicy.hawaii.edu/outreach-communication/hawaii-clean-energy-day/2016/awards.html](http://www.hawaiienergypolicy.hawaii.edu/outreach-communication/hawaii-clean-energy-day/2016/awards.html)

If you know of a transformational contribution to achieving clean energy in Hawaii, please complete the Nomination Form below and email to [hawaiienergypolicyforum@gmail.com](mailto:hawaiienergypolicyforum@gmail.com). Hard copies can also be mailed to HEPF at the University of Hawaii, 2424 Maile Way, Saunders Hall 723A, Honolulu, Hawaii. **Deadline for nominations is June 23, 2017.** Awards will be presented at the HEPF 9<sup>th</sup> Annual Hawaii Clean Energy Day on August 28, 2017.

### Nomination Form

#### ABOUT THE NOMINEE:

Name of Organization or Individual: \_\_\_\_\_

Brief Description of the Transformational Project/Initiative: \_\_\_\_\_

Person(s) involved (names & titles/positions): \_\_\_\_\_

Contact phone/email of Nominee(s): Phone: \_\_\_\_\_ Email: \_\_\_\_\_

Phone: \_\_\_\_\_ Email: \_\_\_\_\_

Phone: \_\_\_\_\_ Email: \_\_\_\_\_

#### Transformational Clean Energy Achievement Category *(please select one only):*

- Energy Policy / Legislation
- Energy Technology
- Energy Integration with Other Sectors
- Energy Efficiency/Conservation
- Energy Collaborative Problem Solving
- Energy Education/Communication

*Continued on next page*

Please answer the following three questions in the space provided below:

1. **WHAT was achieved?** Provide a brief description of the transformational achievement, i.e. what did the Project achieve in addressing the need described in 2.
  
2. **WHY is this Achievement important?** Provide a brief history of the need, problem, or issue addressed that is critical to advancing clean energy for Hawaii.
  
3. **WHAT's NEXT?** Describe current status, e.g. has the technology or solution been incorporated into operations, has technology been commercialized, is policy being implemented? And what is next step for the project to sustain its effort to advance clean energy?

#### **NOMINATOR INFORMATION**

Your Name: \_\_\_\_\_

Your Organization / Title: \_\_\_\_\_

Your Affiliation w/Nominee: \_\_\_\_\_

Contact No.: \_\_\_\_\_

Today's Date: \_\_\_\_\_

Please email your nominations as attachments to [hawaiienergypolicyforum@gmail.com](mailto:hawaiienergypolicyforum@gmail.com) **no later than June 23, 2017**. If you have any questions, feel free to call Sharon Moriwaki at: 808.956.7070.
